SQL Server. Eager to contribute expertise to impactful software
projects. Let's connect!

Experience

Rumah Siap Kerja

4 years 2 months

Frontend Developer Lead

December 2021 - April 2024 (2 years 5 months)

Jakarta, Indonesia

Keyword: Project Management, Reporting, Manage Team, Jira, Agile
Methodology, TypeScript, NuxtJs, TailwindCSS, ReactJs

- Project Management: Led a frontend team of 5 members, managing tasks and ensuring project delivery within deadlines.
- Agile Methodology: Implemented Agile practices, including sprint planning, stand-ups, and retrospectives to optimize team performance.
- Jira: Utilized Jira for task tracking, issue management, and project coordination.
- Reporting: Generated regular reports on project progress, milestones, and risks, providing updates to stakeholders and the Head of IT.
- Vendor Task Management: Oversaw vendor tasks, ensuring timely completion and adherence to quality standards.
- Minutes of Meeting (MoM): Prepared detailed MoMs to document discussions, decisions, and action items from project meetings.
- Redesign: Spearheaded the redesign of RSK 3.0, incorporating user feedback and improving the overall user experience.

- RSK Back-office: Developed and maintained the RSK Back-office using TypeScript, NuxtJs, and TailWindCSS, optimizing functionality and performance.

Stack Upgrade: Migrated the tech stack from VueJs to ReactJs to enhance application performance and scalability.

Frontend Developer

April 2020 - December 2021 (1 year 9 months)

Indonesia

Keyword: Vue.JS, React.JS, SCSS, Less, React Native

- Vue.JS: Developed and maintained rumahsiapkerja for company partners using Vue.JS.

- React.JS: Developed and maintained rumahsiapkerja for end-users using React.JS.

- SCSS & Less: Utilized SCSS and Less for styling and theming in the frontend development process.

- React Native: Developed and maintained rumahsiapkerja mobile app using React Native.

- CMS Development: Developed and maintained the CMS (Content Management System) for the rumahsiapkerja backoffice.

- Testing: Conducted testing using LambdaTest to ensure compatibility and responsiveness.

- Bug Testing: Implemented testing flows to minimize bugs and improve product quality.

- API Integration: Integrated Restful APIs into the rumahsiapkerja system.

- Redesign: Led the redesign of RSK 2.0 to enhance user experience and improve overall functionality.

- Reporting: Provided regular progress reports to the Head of IT, keeping stakeholders informed.

- Product Collaboration: Collaborated with Product Leads/Managers to discuss product plans and align development strategies.

- Task Planning: Planned task schedules and assigned them to developers for efficient project execution.

- Unit Testing: Implemented unit testing using Nightwatch and Mocha frameworks to ensure code quality and stability.

Jr. Full Stack Developer

March 2020 - March 2020 (1 month)

Indonesia

rumahsiapkerja.com is one program from sandiaga uno campaign.

using vueJS for Frontend and nestJS for backend

Focus on Frontend

- Software Ideation: Collaborated with development teams and product managers to generate software solution ideas for rumahsiapkerja.com.
- Architecture Design: Designed client-side and server-side architecture for the VueJS-based frontend of rumahsiapkerja.com.
- Frontend Development: Built visually appealing front-end applications, ensuring a seamless user experience.
- Database Management: Developed and managed well-functioning databases and applications to support the frontend of rumahsiapkerja.com.
- API Development: Implemented effective APIs to enable seamless communication between the frontend and backend (NestJS) of rumahsiapkerja.com.
- Testing and Optimization: Conducted comprehensive software testing to ensure responsiveness and efficiency of rumahsiapkerja.com.
- Troubleshooting and Upgrades: Identified and resolved software issues, performed necessary debugging, and implemented upgrades to enhance functionality.
- Security and Data Protection: Implemented appropriate security measures and data protection settings to safeguard user information on rumahsiapkerja.com.
- Mobile-Responsive Design: Developed features and applications with a mobile-responsive design to ensure compatibility across various devices.
- Documentation: Wrote technical documentation to provide comprehensive insights into the frontend architecture and functionalities of rumahsiapkerja.com.
- Collaboration: Collaborated with data scientists and analysts to identify areas for software improvement and implemented necessary enhancements.

Purwadhika Startup and Coding School
Bootcamp Student
October 2019 - March 2020 (6 months)
Jakarta

Purwadhika is Coding School

- Web and Mobile Development: Proficient in web and mobile development, specializing in JavaScript for React Native, ReactJS, NodeJS, ReduxJS, MongoDB, ExpressJS, MySQL, and Restful API.

- React Native: Skilled in developing cross-platform mobile applications using React Native framework.
- ReactJS: Experienced in building dynamic and interactive user interfaces using ReactJS.
- NodeJS: Proficient in server-side development using NodeJS for scalable and efficient web applications.
- ReduxJS: Strong understanding and implementation of ReduxJS for state management in web applications.
- MongoDB: Experienced in working with MongoDB for database management and integration in web applications.
- ExpressJS: Knowledgeable in using ExpressJS framework to build robust and scalable web applications.
- MySQL: Proficient in designing and managing relational databases using MySQL for web applications.
- Restful API: Skilled in developing and integrating Restful APIs to facilitate communication between frontend and backend systems.
- Coding School Experience: Successfully completed web and mobile development courses at Purwadhika Coding School.

Indosat Ooredoo

IT Helpdesk

September 2018 - August 2019 (1 year)

Indonesia

Outsourcing from PT Mitra Integrasi Informatika. Placement at PT Indosat Ooredoo Tbk as Enterprise Helpdesk

Indosat Service Manager (HPSM):
